REQUEST FOR CLARIFICATIONS

Pursuant to Section 5 (Terms of Reference) on Staff Requirements, we request the following Clarifications:

(1) On Staff Requirements: Key Personnel : Materials Engineer/ Deputy Resident Engineer, (Page 61):

- i. The RFP requires the Materials/Deputy Resident Engineer to have at least 6 years' experience in evaluation of Contractor's claims. It would be difficult to get a Materials Engineer with a combination of such experience – Materials' experience and Claims expertise. We are kindly requesting whether you could waive the Claims experience for the Materials Engineer/Deputy Resident Engineer and propose a Claims expert as Key Expert. Experience in Contractor's Claims is already given as part of the required qualifications for the Resident Engineer.

(2) On Detailed Description of the Services : Services During Defects liability Period : Resident Engineer, Deputy Resident Engineer, Site Inspector , Laboratory Technician & Surveyor (Page 57):

- i. Section 3.5.15 of the TOR states that the Resident Engineer's foreseen input is 6 months and 3 months each for the Deputy Resident Engineer, Site Inspector, Materials Technologist and Surveyor during the Defects Liability Period. This contradicts what is provided in section 6.1 (Staff required). Kindly clarify which supercedes the other.

Kindly consider our requests and confirm.

Thank you in advance for your response.
