

**Kenya National
Highways Authority**

Quality Highways, Better Connections

INFORMATION SECURITY POLICY STATEMENT

Kenya National Highways Authority is committed to ensuring the protection of Confidentiality, Integrity and Availability of its information, maintaining and improving information security while minimizing its exposure to information security threats within its environment.

The Authority has adopted an Information Security Management System (ISMS) comprising of information security procedures and guidelines that conform to legal and regulatory requirements and the requirements of ISO/IEC 27001 Standard.

The Authority's Top Management is committed to this policy and shall provide necessary resources for the implementation and maintenance the Information Security Management System that incorporates a formal and systematic approach to managing information security risks.

Information Security Management System objectives shall be reviewed on an annual basis with measurable key performance indicators that are actively monitored.

Top Management is committed to continually improving the ISMS, ensuring its suitability, adequacy and effectiveness.

Eng. Kungu Ndungu

Director General
